

NEW QUARANTINE GUIDELINES

New return guidelines issued by STL Health Department last week 1/7/22:

You may return to school or work if you were quarantined...

1. After 5 days if fever free for 72 hours without medication
 2. After 5 days if fever free for 24 hours and a negative antigen test
 3. If you have a positive antigen test on the 5th day then you return on the 10th day with no test.
- You must see the school nurse before returning to the classroom
 - Fully vaccinated individuals that are exposed to a positive tested person, at home or at school, **do not** have to be quarantined unless they have COVID symptoms **and/or** test positive for COVID.
 - The school nurse and/or administration has the sole responsibility of determining whether an individual gets COVID tested at school. If you are not symptomatic you will not be tested at school.
(Exception...see #2 above)
